

SDG DATAVIZ CAMP

VISUALIZING INEQUALITIES

PARTICIPANT INVITATION

Are you enthusiastic about data visualization and would you like to develop yourself? Join the DataViz Camp and experience a week of intense learning and having fun while working on data visualization challenges of urgent topics! The challenges are about inequalities related to the UN's Sustainable Development Goals and are provided by challenge owners varying from companies to government organisations. Develop new skills, gain and share your knowledge with fellow participants and directly apply it to your project.

IN IT FOR YOU

During this week with workshops and inspirational talks, you will be working on relevant challenges developing data visualisation projects. It is a great opportunity to learn more about data wrangling, data analysis and creative data visualisation. In the mixed teams of knowledgeable people it is easy to connect, share experience and broaden your professional network. Besides, this is a unique event to work on societal problems with fellow enthusiasts and visionaries.

FOR WHOM

We are looking for highly motivated participants, who are available for the full five days. We welcome students, researchers, civil servants, professionals (business and NGO) and creatives, or anyone who can contribute to the DataViz Camp! Basic knowledge about data science or data visualization is useful but not required. The organization will select participants based on motivation and skills. Come join and strengthen a team to create innovative or unconventional data visualizations that will open eyes about inequalities.

PARTICIPATION

To participate in this awesome event, you can apply through our website. We would like to know what your motivations and skills are, and what you would like to learn at the DataViz Camp. Optionally, you can add a link to your portfolio. There is no fee involved. Deadline for application is April 27th.

CONTACT US

If you want to participate or have any questions about the DataViz Camp, visit our website to apply or email us at datavizcamp@utwente.nl.

We hope you are just as passionate as we are about bringing the realization of the Global Goals one step closer. Looking forward to hearing from you!
