SEPARATION RISKS of MARRIED AND COHABITING COUPLES

How Important is
the Social Context?

Willem Vermeulen

SEPARATION RISKS of MARRIED AND COHABITING COUPLES

How Important is
the Social Context?

Willem Vermeulen

This research was conducted as part of the project “Explaining differences in union dissolution between municipalities: the role of compositional, contextual and cross-level effects”, financed by the Dutch Research Council (NWO; grant 406.18.SW.015 to Aart C. Liefbroer).

The author gratefully acknowledges the financial support for printing this dissertation by the University of Groningen (RUG), the University Medical Center Groningen (UMCG) and the Netherlands Interdisciplinary Demographic Institute (NIDI-KNAW).
