Explanation of the data sources

Data sources

Longitudinal Municipal Population Register (MPR-L) 1996-2006

The Municipal Population Register is a computerised population register used by all municipalities in the Netherlands to record vital events and migration. It was introduced on 1 October 1994. In principle, all persons living in a municipality are registered in the MPR. The register includes information on date of birth, gender, country of birth, address, household composition, immigration and emigration. The MPR-L is a longitudinal register, composed of all entries from 1 January 1995.

For this set of tables, the MPR_L was used to determine country of birth. Where country of birth could not be determined by means of the MPR-L, the country of birth in LFS was used.

Labour Force Survey (LFS), 2001, 2002, 2005, 2006

The LFS is a continuous sample-based survey of the population aged 15 years and older resident in the Netherlands, excluding persons living in homes and institutions. The survey collects data from some 120 thousand respondents every year. This is the equivalent of 0.8 percent of the target population. The LFS includes questions on prior and present education, employment situation and household characteristics. In the present study the LFS for the years 2001, 2002, 2005 and 2006 was used.

Employment and Wage Survey (EWS) 2005

The EWS surveys a large number of enterprises and institutions to collect data concerning employment, wages and working hours on both the level of enterprises and employees.

The target population contains all sectors excluding personnel in the service of households and institutions of the international community. Not all enterprises in the target population are surveyed and the surveyed employees are not evenly distributed amongst sectors. Especially large companies, public administration and education are overrepresented. Almost half of all jobs are surveyed and weighted to estimate the entire population. For this set of tables EWS 2005 was used.

Overview set of tables

Table 1	Children of migrants, aged 20-29 and 15-39 and not in education by country of birth and other background characteristics, 2001/2002
Table 2	Children of migrants, aged 20-29 and 15-39 and not in education by country of birth and other background characteristics, 2005/2006
Table 3a	Children of migrants, aged 20-29 and 15-39 and not in education by migration background-OECD and other background characteristics, 2001/2002
Table 3b	Children of migrants, second generation, aged 20-29 and 15-39 and not in education by migration background-OECD and other background characteristics, 2001/2002
Table 4a	Children of migrants, aged 20-29 and 15-39 and not in education by migration background-OECD and other background characteristics, 2005/2006
Table 4b	Children of migrants, second generation, aged 20-29 and 15-39 and not in education by migration background-OECD and other background characteristics, 2005/2006
Table 5	Children of migrants, aged 20-29 and 15-39, employed and not in education by employment, country of birth and other background characteristics
Table 6	Children of migrants, aged 20-29 and 15-39, employed and not in education by employment, migration background-OECD and other background characteristics
Table 7	Children of migrants, aged 15-64, employed and not in education by employment, country of birth and other background characteristics
Table 8	Children of migrants, aged 15-64 and foreign born by country of birth and other background characteristics
Table 9	Children of migrants, aged 15-64 and foreign born with more than 10 years of residence by nationality and other background characteristics, 2005/2006
Table 10	Median and mean hourly wage of children of migrants, aged 15-64, native- and foreign born by working hours and gender, 2005
Table 11	Median and mean hourly wage of children of migrants, aged 15-64 and foreign-born by country of birth and gender, 2005
Table 12	Median and mean hourly wage of children of migrants, aged 15-64, native- and foreign born by education and gender, 2005
Table 13	Median and mean hourly wage of children of migrants, aged 15-64 and foreign-born by nationality, years of residence and other background characteristics, 2005
Table 14	Median and mean hourly wage of children of migrants, aged 20-29 and not in education by country of birth and other background characteristics, 2005
Table 15	Median and mean hourly wage of children of migrants, aged 20-29 and not in education by migration background-OECD and other background characteristics, 2005
Table 16	Median and mean hourly wage of children of migrants, aged 15-39 and not in education by country of birth and other background characteristics, 2005
Table 17	Median and mean hourly wage of children of migrants, aged 15-39 and not in education by migration background-OECD and other background characteristics, 2005
Table 18a	Children of migrants, aged 20-29 and 15-39 and not in education by migration background-LFS and other background characteristics, 2001/2002
Table 18b	Children of migrants, aged 20-29 and 15-39 and not in education by migration background-LFS and other background characteristics, 2005/2006
Table 19a	Children of migrants, aged 20-29 and 15-39 and not in education by migration background-LFS second generation and other background characteristics, 2001/2002
Table 19b	Children of migrants, aged 20-29 and 15-39 and not in education by migration background-LFS second generation and other background characteristics, 2005/2006
Table 20a	Children of migrants, aged 20-29 and 15-39, employed and not in education by employment, migration background-CBS and other background characteristics, LFS
Table 20b	Children of migrants, aged 20-29 and 15-39, employed and not in education by employment, migration background-CBS and other background characteristics, LFS second generation
