

Documentatie Ouders en Kinderen in Nederland 2020 (OKIN2020)

Bronvermelding

Publicatie van uitkomsten geschiedt door de onderzoeksinstituting of de opdrachtgever op eigen titel. Verwijzing naar het Centraal Bureau voor de Statistiek (CBS) betreft uitsluitend het gebruik van de niet-openbare microdata. Deze microdata zijn onder [bepaalde voorwaarden](#) voor statistisch en wetenschappelijk onderzoek toegankelijk. Voor nadere informatie microdata@cbs.nl. Dat wordt als volgt geformuleerd:

“Resultaten [gedeeltelijk] gebaseerd op eigen berekeningen [*naam onderzoeksinstituting, c.q. opdrachtgever*] op basis van niet-openbare microdata van het Centraal Bureau voor de Statistiek betreffende *Ouders en Kinderen in Nederland 2020*.”

Engelse versie

“Results based on calculations by [*name of research institution or commissioning party*] using non-public microdata from Statistics Netherlands.”

Under [certain conditions](#), these microdata are accessible for statistical and scientific research. For further information: microdata@cbs.nl.

Beschikbare bestand(en):

Het bestand is beschikbaar over 2020

De gebruiker dient rekening te houden met het volgende:

- Voor de persoonskenmerken en/of achtergronden dient u de beschikbare GBA-bestanden te raadplegen. Deze staan bij [Zelf onderzoek doen](#) in de catalogus onder het thema [Bevolking](#). Voor het aanvragen van deze bestanden geldt de gebruikelijke procedure.
- Zie [Onderzoeksomschrijvingen](#) voor meer informatie over alle onderzoeken.

1. Inleiding

Het team Microdata Services van het CBS stelt, onder [bepaalde voorwaarden](#), niet-openbare microdata (geanonimiseerde data op persoons-, bedrijfs- en adresniveau) toegankelijk voor statistisch en wetenschappelijk onderzoek. Dit rapport beschrijft de inhoud en structuur van “*Ouders en Kinderen in Nederland 2020*”.

Hoofdstuk 2 beschrijft in het algemeen de microdatabestanden zoals populatieafbakening, methodologische bijzonderheden, kwaliteit en herkomst van de gegevens.

In hoofdstuk 3 wordt de bestandsindeling gegeven en worden voor de categoriale variabelen alle mogelijke scores en hun betekenis opgesomd.

De volgende bijlagen zijn beschikbaar in de beveiligde microdata omgeving:

- OKIN2020RoutesOkin3_v2.5_zwart;
- OKIN20200218TekstenOkin3_v2.5_zwart;
- OKIN20201013Onderzoeksdocumentatie_v1.0;
- OKIN2020waardenoverzicht.

Beschrijving

Er is een lange traditie van onderzoek naar stiefgezinnen dat vooral gericht is op gezinnen met jonge kinderen. Het project “Ouders en Kinderen in Nederland” richt zich op volwassen kinderen (geboren tussen 1971 en 1991) en hun ouders/opvoeders. Het doel van het onderzoek is om in kaart te brengen of het opgroeien in een “standaard gezin” (bij je beide biologische ouders) tot andere uitkomsten leidt dan het opgroeien in een “niet standaard gezin” (niet bij je beide biologische ouders).

Het project is vernieuwend vanuit methodologisch oogpunt omdat er een nieuw design is ontwikkeld (door een team bij de Universiteit van Amsterdam), waarbij voor een groot aantal volwassen kinderen, en meerdere ouders worden benaderd per kind. Het project richt zich op volwassen kinderen (geboortejaren 1997 t/m 1991) en hun ouders (zowel biologische ouders, stiefouders en adoptieouders). Het onderzoek bestond in 2017 uit twee deelonderzoeken; waarbij het eerste deel onderzoek gericht was op waarneming bij personen geboren tussen 1971 en 1991, waarvan $\frac{1}{4}$ opgroeide in een ‘standaard gezin’ (met hun biologische ouders) en $\frac{3}{4}$ in een ‘niet standaard gezin.’ Het tweede gedeelte van het onderzoek richt zich op de ouders van deze volwassen kinderen.

In 2018 is een aanvullend onderzoek uitgevoerd; het OKiN adoptiekinderen onderzoek. Dit nieuwe onderzoek bevatte alleen het eerste deel van het onderzoek, niet het tweede deelonderzoek. Dat betekende dat er dus alleen kinderen (ankers) worden benaderd en geen ouders of broertjes/zusjes van deze kinderen.

De adoptiekinderen waren bij OKiN 2017 uitgesloten van deelname, omdat dit binnen het onderzoek een zeer specifieke doelgroep betreft. Na het afronden van OKiN 2017 bleek dat er nog wel steeds behoefte is aan informatie over deze doelgroep. Daarom is er in 2018 een nieuw OKiN uitgevoerd, speciaal onder deze adoptiekinderen.

In 2020 heeft er een herbenadering plaatsgevonden van de ankers uit het onderzoek van 2017. Dit om de relaties tussen ankers en andere familieleden te kunnen volgen door de tijd heen. Respondenten die bij het eerste onderzoek hebben aangegeven te mogen worden herbenaderd werden in 2020 voor OKiN nogmaals gevraagd deel te nemen aan het onderzoek.

Het onderzoek is geheel in samenwerking gedaan met een team van de Universiteit van Amsterdam (UvA). Zij hebben geld binnen gehaald van de Europese Commissie om dit onderzoek te kunnen uitvoeren.

Het CBS was verantwoordelijk voor de dataverzameling van het project en de oplevering van de databestanden. Het team van de UvA is betrokken geweest bij de planning van het veldwerk, de ontwikkeling, bouw en het testen van de vragenlijst.

3. Bestandsopbouw en toelichting

Bestandsopbouw

Onderstaand volgt een overzicht van alle variabelen.

Nr	Variabele en omschrijving	Form.
1	RINPERSOONS CBK soortnummer	A1
