

## Research Proposal Microdata Services

Template for the assessment of the application for a CBS Microdata project

Title of the research:

Desired start date:

What is the background of the microdata project?

What is the main research question? What are the sub research questions? Be as specific as possible; which constructs and relations will be investigated and what are the expected outcomes?

What information are you looking for? Which CBS files<sup>1</sup> are needed? Provide a brief motivation for using the file. Also indicate the needed volume(s) per file. If it is not known which file is required, please state which information is required in the motivation.

**File name**

**Volume**

**Motivation for use**

<sup>1</sup> You will find the most recent documentation reports of the available micro-data files per theme in our [catalog](#). The reports are in Dutch.

Empty rounded rectangular box for Motivation for use.

What is the target population? Are they persons, companies or other units? Specify is detailed as possible (e.g age group, sbi)

Are data linked that are not obtained from CBS? If yes, state who the source holder is and whether the use complies with the GDPR.

Please give a brief description of the content of these data and indicate how large the population is. And which identifying variables will be used to merge.

Is data needed that is not available as standard<sup>2</sup> and is additional statistical research<sup>3</sup> needed from CBS? Give a brief explanation.

Is the project carried out for a third party? If yes, please state who the client is.

<sup>2</sup> You will find the most recent documentation reports of the available micro-data files per theme in our [catalog](#). The documentation reports are in Dutch.

<sup>3</sup> Statistics Netherlands also performs [customised statistical research](#) using existing data on request.
