Foreword

As of 10 October 2010, Statistics Netherlands is responsible for the production and publication of statistics for the Caribbean Netherlands: Bonaire, St Eustatius and Saba. This booklet presents figures on some important aspects of society in the Caribbean Netherlands. It gives a brief impression of areas such as population, education, crime and prices in the region. For more statistics on the Caribbean Netherlands, visit our website: www.cbs.nl.

Director General of Statistics

G. van der Veen

The Hague/Heerlen/Kralendijk,
October 2013

Erratum

Date: 15 November 2013

The Caribbean Netherlands in figures 2012

In spite of the care we have taken in compiling this book, we have discovered an error. We apologise for any inconvenience this may have caused.

The title of table 1.2 (page 7) and figure 1.3 (page 8) should read "Crime, number of registered suspects, Bonaire".

The title of table 2.2 (page 23) and figure 2.3 (page 24) should read "Crime, number of registered suspects, St Eustatius".

The title of table 3.2 (page 37) and figure 3.3 (page 38) should read "Crime, number of registered suspects, Saba".

In addition, in these tables and figures, "murder/manslaughter" should read "murder/manslaughter and attempted murder/manslaughter".

Labour

1.12 Labour force, Bonaire, 2012

	International definition (15 yrs or older)	National definition ¹⁾ (15–64 yrs)
Total population	13,479	11,795
Labour force	9,383	9,120
employed labour force	8,837	8,559
unemployed labour force	546	561
Not in the labour force	4,096	2,675
	%	
Net labour participation	65.6	72.6
Unemployment rate	5.8	6.2
Youth unemployment rate (15–24 yrs)	12.0	12.2

Source: Labour Force Survey Caribbean Netherlands (CBS 2012)

¹⁾ The Dutch national definition of the labour force refers to people who work or want to work for at least 12 hours per week. The international definition of the ILO (International Labour Organisation) doesn't include this threshold of 12 hours. For the national definition it is common to present figures for the age group 15–64 years, for the international definition this is usually 15 years or older.

Youth unemployment rate (15-24 yrs)	x	x

Source: Labour Force Survey Caribbean Netherlands (CBS 2012).

¹⁾ The Dutch national definition of the labour force refers to people who work or want to work for at least 12 hours per week. The international definition of the ILO (International Labour Organisation) doesn't include this threshold of 12 hours. For the national definition it is common to present figures for the age group 15-64 years, for the international definition this is usually 15 years or older.
